

DLP Option Paragraphs

The first and fourth paragraphs, about your learning and praise for a class member, are mandatory. The second and third paragraphs can be any of the following options:

- A continuation of one of the discussions in the class that week. This paragraph should clearly state the discussion and add to it.
- A reflection on instances of respect and disrespect shown by class members (and/or the teacher) during that week.
- A reflection on what went well and what could have gone better that week.
- A suggestion on alternative methods or activities that could be introduced to the class.
- A review of the readings to date, including connections between authors and philosophies.
- A summarization of notes taken by the student. This option is aimed at the students who take copious notes on class discussions with the idea that it will provide an avenue for them to profit from them.
